To whom it may concern

Ref: Days Rental Company Ltd.

Please accept this testimonial in support of Days Rental Company.

As a public sector Fleet Manager, we operate a large diverse range of vehicles. Whilst most of these vehicles are owned out right, we still have a constant need for support from our local rental companies to provide vehicles to cover seasonal demands, short-term needs and general downtime / breakdowns of our own fleet.

We have used Days Rental for many years, knowing them to be knowledgeable on the vehicle types that we require for our operational use. They are always able to offer a number of options for us to consider and nothing is too much trouble for their friendly attentive staff.

Vehicles are delivered in a timely manner, and are usually new / nearly new so we know that we will have the latest in design standards and have vehicles that are reliable. Our current seasonal hire tippers are all Euro 6.2 and this goes some way to help the Council in meeting our carbon reduction programme. Downtime is zero, the staff are happy in having new vehicles and we have reduced fuel costs.

We are now taking delivery of petrol hybrid cars for use as pool vehicles, again another step in reducing our carbon footprint. Once again, supported by Days Rental, our expectations have been exceeded.

Their speed of response, attentiveness, modern fleet and outstanding customer service make them an easy choice as a supplier.
