Our Journey

B2B – Pool Car

Connecting business owned vehicles to its employees and customers

Solving problems for the consumer and then building solutions to manage a fleet ourselves has enabled us to build an iDRIVE solution that is truly fit for purpose

Day's | Drive Car Share for business

Organisations are increasingly realising the cost, efficiency and environmental benefits made possible by sharing pool cars amongst employees.

Increase utilisation to 80%+

Reduce your fleet by up to 40%

Free up parking spaces

**Accelerate Net-Zero goals**

Give drivers a great iDrive experience

Remove the burden of tracking keys

Day's | Drive Car Share adds unique flexibility to these benefits, providing a fit for purpose solution to your organisation's specification.

What is Day's | Drive Car Share

Leverage technology to improve the utilisation of your assets, decrease your fleet size and provide drivers with access to a market leading booking platform
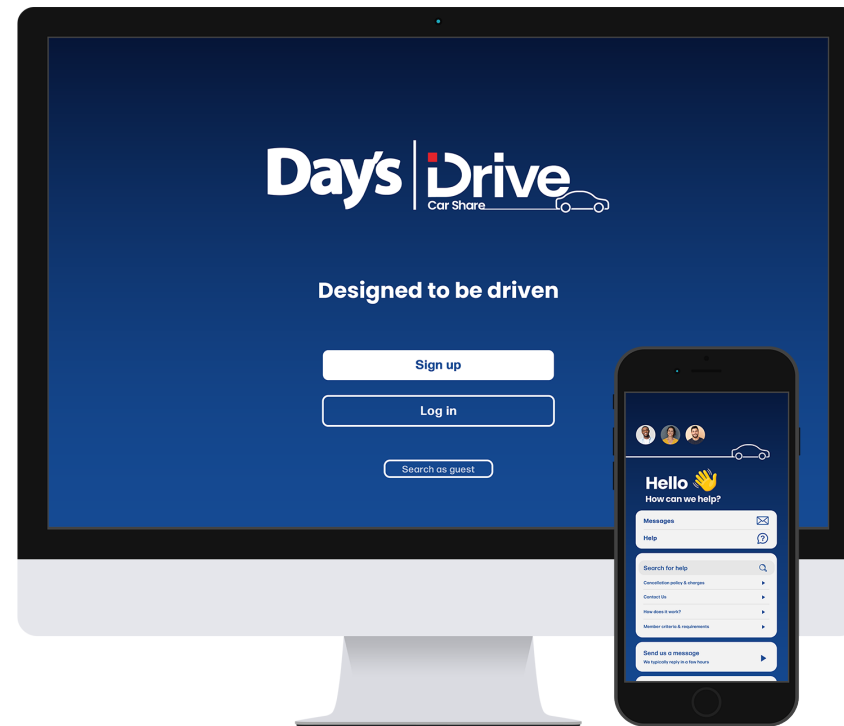

Booking platform

Our booking platform has been developed in partnership with drivers and is highly rated on TrustPilot.

Keyless vehicle access

Remove the burden of key handover, our solution makes vehicle hire completely keyless.

24/7 Support

Our team will take care of all booking, vehicle and breakdown related queries end to en.d
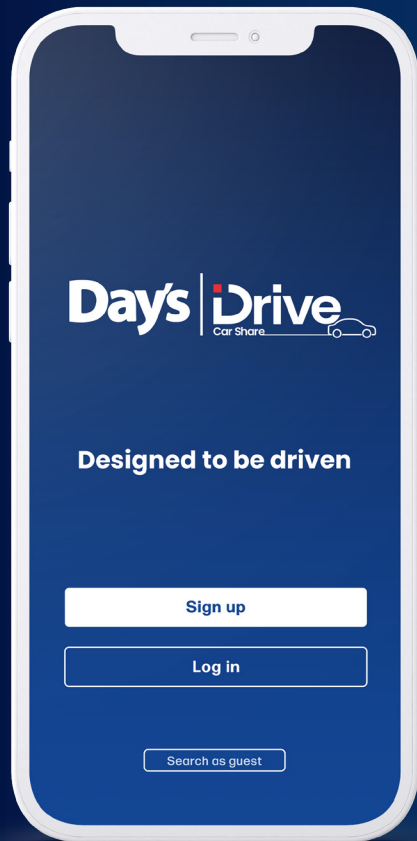

Fleet administration

Powerful Management Information & a Fleet Admin system which was developed from the ground up for car sharing.
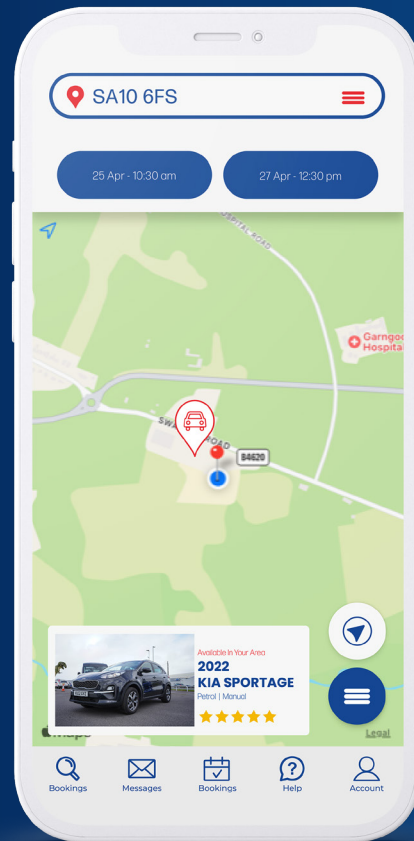

Booking Platform

## Designed to be driven

Our booking platform enables drivers to complete all aspects of car hire in one simple to use app.

Field Market
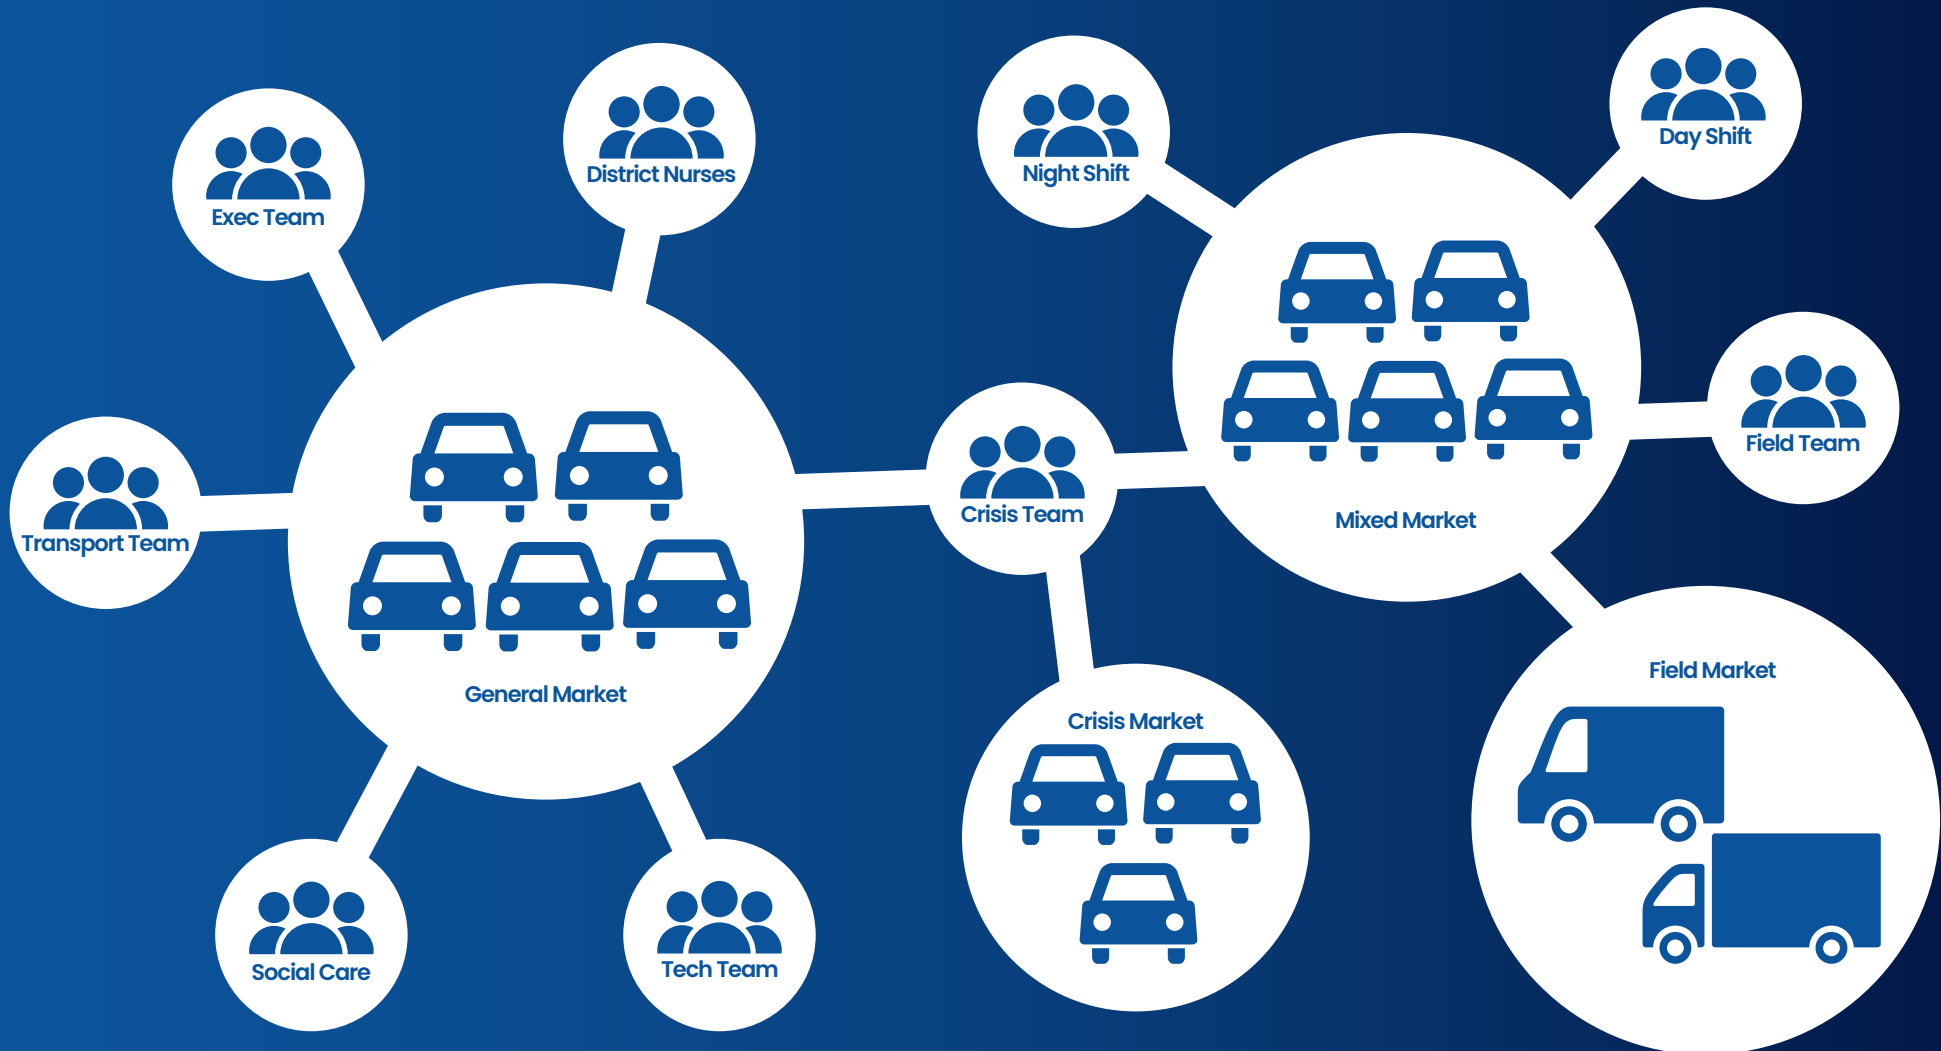

Reporting

More than just Cost Centres & Utilisation

Driver
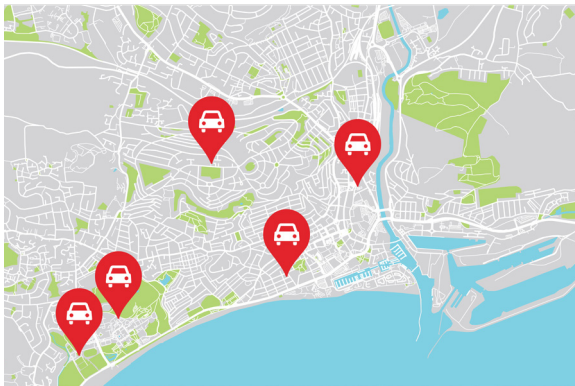

Market usage, driver behaviour and occupancy rate

Vehicle

Utilisation, trip maps, battery status, charging status

Management

Usage, cost centres and emissions

Reporting can be built using bespoke dashboards or raw data can be provided for your own analysis.

Fleet Administration

Identify damage

Leverage our in-app damage log, to easily identify & attribute damage to specific drivers.
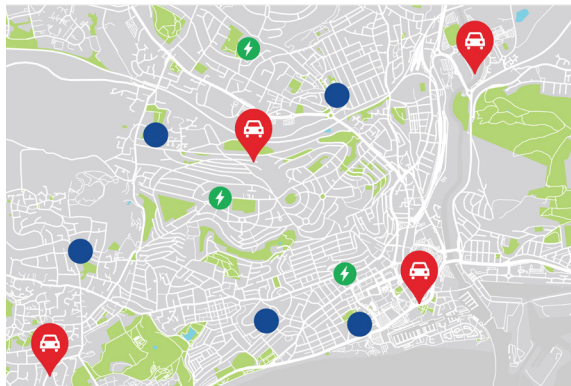

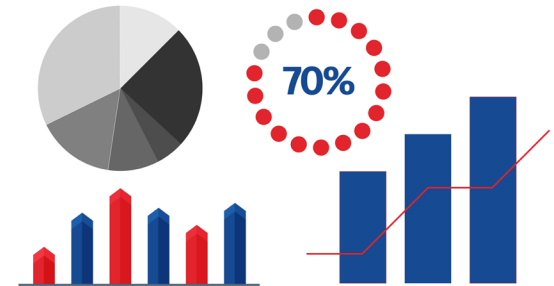

Manage PCN's

Thanks to Facial Recognition & a simple to use bookings history, it is easy to identify who was responsible for the vehicle at the time of any offence.

Measure utilisation

Use fully customisable reporting to identify vehicle utilisation and make informed decisions on de-fleeting & infleeting.

Manage servicing

Block out car calendars & allow remote access to contractors in one screen, to enable you to manage servicing, repairs and MOTs remotely.

Real-time car info

Get real-time mileages & DTC codes to easily identify vehicles with issues, so you can act quickly and prevent downtime.

Simplify bookings

An automated booking process & keyless car access tech means the days of using vehicle calendars and managing the location of physical keys, are gone!
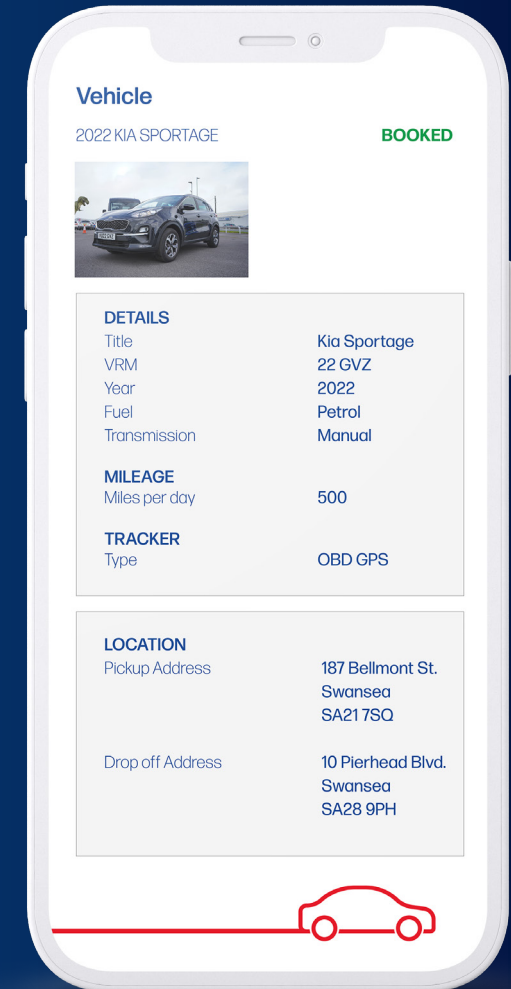

Emission reporting

Remove all manual aspects from your emission reporting - it is fully automated as standard.

Monitor driver behaviour

Identify, educate and monitor bad drivers thanks to the accelerometer & driver behaviour capabilities of the Keyless Solution.

Reduce parking pressure

Leverage the utilisation of vehicle location to identify hot spots for parking and reduce the pressure on your site(s).

Vehicle

2022 KIA SPORTAGE   BOOKED

Pool Car
Powered by Day's iDrive Car Share

Shared
With your community

Mon	Tue	Wed	Thu	Fri	Sat	Sun

Use your cars on your own insurance using the Day's iDrive Car Share fleet management system in a closed market during working hours.

Cars listed in the open market , in evenings and weekends making them available to staff and/or the public for private use on Day's iDrive Car Share specialist car sharing insurance.

Example Forecast

	Current	Day's Drive Car Share
Fleet Size	260	182
ICE Car	100	70
Hybrid Car	100	70
Electric Car	10	7
ICE Van	50	35
Electric Van	0	0

Benefits
Not costed in to potential price savings

- Remove the need to store keys on site
- Remove the need for any other 3rd party fleet management tools.
- Remove the need for any 3rd party telematics.
- Share vehicles with your community to off-set the cost.

Assumptions

- Day's Drive Car Share solution will result in a 30% reduction in the vehicles you need by increasing utilisation on a smaller fleet
- Total vehicles on fleet - 260
- Day's Drive Car Share monthly price per car - £45
